Please know we take your safety and the safety of our staff seriously. Below is a list of the comprehensive measures we have put in place to date. This list will evolve as new information is received. Please reach out if you have any questions or concerns.

Steps the studio has taken to ensure safety/continuity as of July 2020:

Ashland BOH reviewed and approved our re-opening plan in July

Smaller class sizes (10 – 12 maximum and in some cases smaller)

Adhering to the 40% or less occupancy for the 3 studios during class times

6 foot squares marked by floor tape to enforce proper social distancing

6 foot markers at ballet barres (wipe down of barres after each use per class)

Waiting rooms closed

No use of props

No student to student touching or holding hands

Masks required for all students, staff & teachers

Aggressive cleaning protocol for high touch surfaces, bathroom, and studios

Hand sanitizer available for students in multiple locations

New cleaning company hired as of September 2020

(In process for the start of the season)

- Purchasing studio equipment for virtual class options
- Purchasing sneeze guards for office desks
- Re-working drop off/pick up procedure for each studio
- Researching portable indoor/outdoor performance floor/stage

Please connect with your child's teacher or any of the office staff if you have any questions regarding registration for next year. Thank you for making dance a priority in your child's development.
